NATURAL FREE COOLING CHILLER

Inverter compressor
Natural refrigerant (R290)
Extended Free cooling coil surface

Unbeatable use of Primary energy thanks to Inverter technology and Free Cooling function • No Ozone Layer impact & Nearly Zero Global warming potential • Optimized Low Refrigerant Charge design • Meets the highest seasonal efficiency standard (European Ecodesign Erp) • Pure water on user side (NG glycol free version)

CHILLER

35÷150 kW • Min Cold water: **-15°C** • Max T_{air}: **52°C** • SEER: up to **4.6**

FREE COOLING

Full **Free Cooling at 5K** from delivery temperature

Natural refrigerant

Inverter technology

Advanced control

CLIMATE CHANGE FIGHT

EUROPEAN CLIMATE STRATEGY IS GOING TO BE UPDATED AND REINFORCED

TARGET

Reduction of **55%** Greenhouse Gas emission by **2030**

Increased **renewable energy** (above **32%**) by **2030**

Net-zero Greenhouse Gas Emission by **2050**

HOW?

F-gas regulation Regulation

Renewable Energy Directive

European Performance of Buildings Directive (**EPBD**)

Ecodesign **ERP** Directive

Keep temperature increase below **1.5°C**

Become a climate neutral economy

R290

NATURAL REFRIGERANT

SUSTAINABLE CHOICE

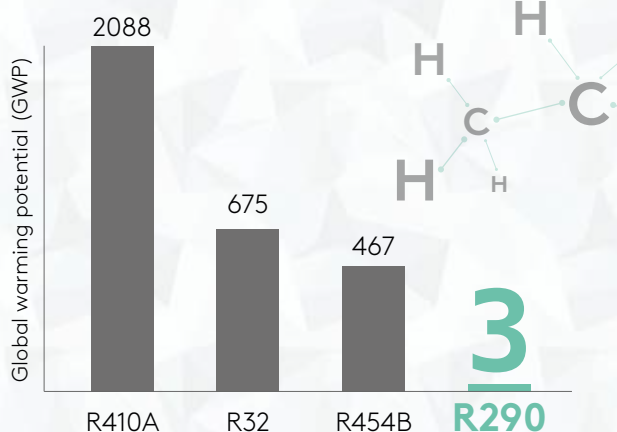

- Nearly zero Global Warming Potential (GWP=3)
- Natural fluid
- Natural non toxic refrigerant
- No Ozone Layer impact
- -40% gas charge compare to R410A

RELIABLE CHOICE

- Long run reciprocating compressor with inverter technology
- Implementation of the highest safety standard

SMART CHOICE

- No carbon tax
- Pushed by incentivisation schemes
- Future-proof natural solution. On going HFC phase-out

FREE COOLING

A STEP FORWARD SUSTAINABILITY

MODULAR COILS DESIGN

Condensing and free cooling coils are completely independent:

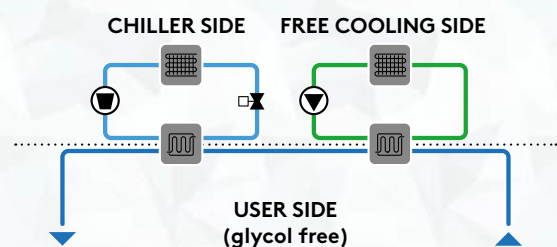

- Each coil is designed independently
- Low air pressure drops, low power absorbed by fan
- Optimized Condensing and Free cooling control
- Easy coils maintenance

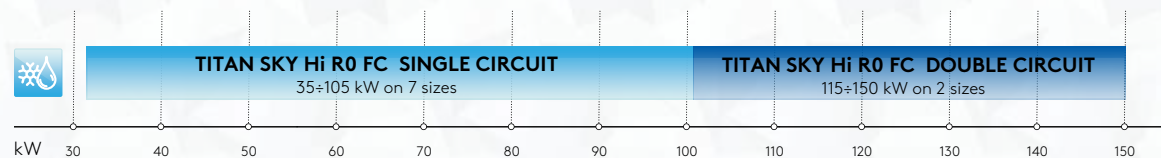

GLYCOL FREE VERSION

Allows to separate freecooling circuit, with glycol, from user side circuit:

- suitable for plant where glycol mixtures are not allowed
- safe operation e.g. in case of leakages
- cost saving: circuit's filling and safety arrangements

CAPACITY RANGE

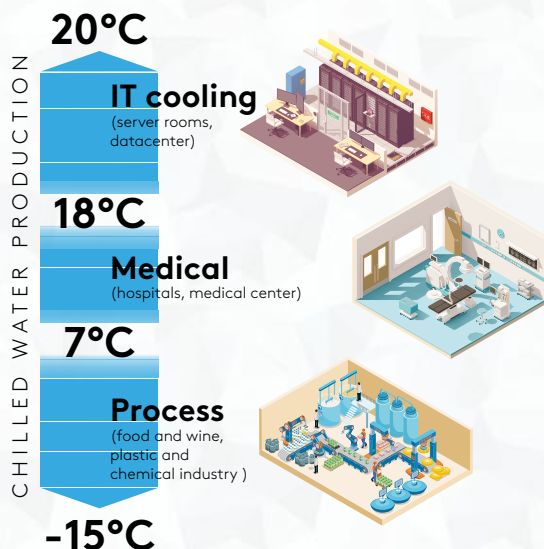

Chiller with
reciprocating full inverter
compressors optimized for R290

EN14511 / EN14825

SEER up to 4.6 | SEPR up to 5.9

FREE COOLING FOR ANY APPLICATIONS

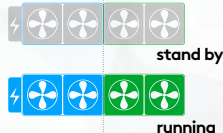

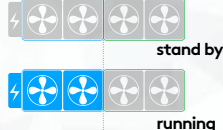

MULTIFREE

is a specific function designed to maximize free cooling operations in multiunits plant. It uses the entire free cooling capacity of all units before starting any compressors. This means higher TFT and energy saving.

BLUE ● ● ● ● ● ● ● ● THINK

Monitoring, performance reports, full management.
Blue Box control platform allows a total access to the machine from any device, in complete autonomy.

Integrated web server

- SET POINT**
operating set point
- MODE**
unit mode (heating, cooling)
- UNIT**
visual status of unit (circuits, compressors..)
- GRAPHS**
real time diagrams of main variables (temperatures, pressure..)
- INPUT/OUTPUT**
status of inputs / outputs (digital and analogic)
- MULTILOGIC**
management of multiple units
- LOGS**
download and analyze unit data history

BLUEYE CONNECT

REMOTE ACCESS TO UNIT

**SAVE MONEY
FAST SERVICE**

BLUEYE CLOUD

CLOUD RECORDING DATAPOINTS

**PREDICTIVE MAINTENANCE
CUSTOMER REPORTING
ANALYSIS**

FLOWZER

INVERTER-DRIVEN PUMPS CONTROL
MANAGEMENT FOR DIFFERENT SYSTEM
LAYOUTS

- CONSTANT FLOW**
 - Simpler site's settings to achieve a real constant flow
- CONSTANT HEAD PRESSURE**
 - The right pressure to the users in any condition
- VARIABLE FLOW**
 - Full control of one unique hydraulic loop
 - Primary/Secondary Loop, the right solution for any layout

UP TO **-55%** savings

in the energy consumption of the pumps compared to a traditional fixed flow system

CWDS

CHILLED WATER DYNAMIC SETPOINT
System approach with the highest level optimization

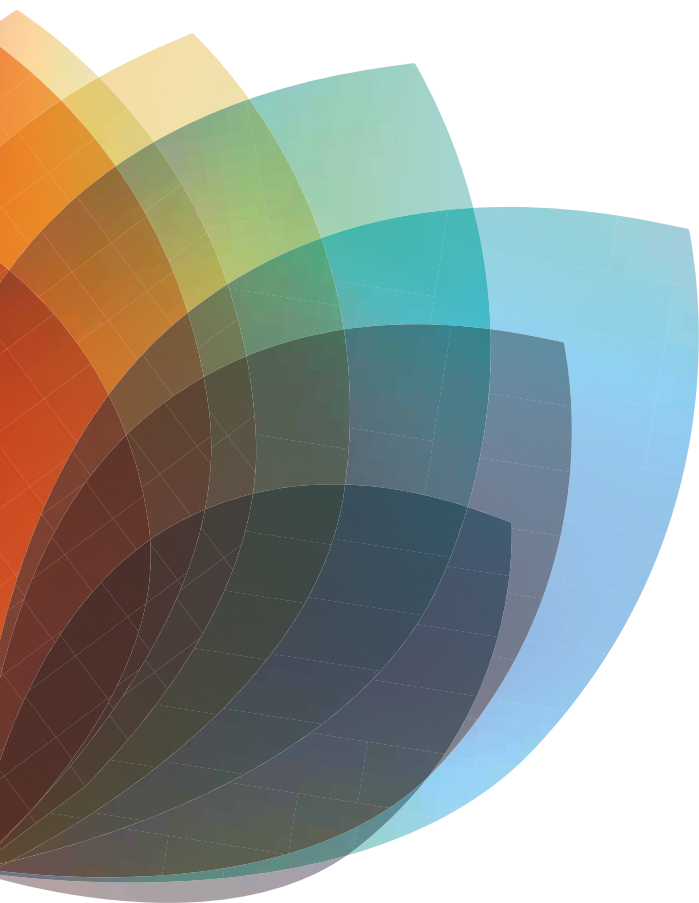

Link freecooling chiller operation to the real IT load requirements

No point producing coldest water and then bypass it, if the load is not 100%

Energy saving opportunities

Increased water temperatures means higher evaporation in Chiller Mode, more Free Cooling, lower operating cost

Feel good **inside**
